

Mines and Mining.

Silver..... \$.66%
Copper..... 10 10
Lead..... 3 12 1/2

There are six men working on the Gold Bug mine at present.

Brown's mill, at Murphy's Landing, is running on rich gold ore.

Kit Fisher has taken a contract to drift on the Lookout gold mine near town.

More men are now working for wages in Mohave county than at any time within the past two years.

W. H. Cooper and T. T. Hines have leased the Dolphin mine, south of Stockton Hill, and will commence work on it next Monday.

Arthur Alman and Ide Hamblin, two Tuckahoe leasers, had eighteen tons of rich ore at the sampler this week. The ore netted them a good round figure.

Tom Steen is still working on the Jennie mine in Weaver district. He will take charge of the building of a road from the Gold Bug mine to the river in a few days.

Thomas Tyrrell was in from his Wallapai mountain mine Wednesday. He has struck a good streak of ore in the tunnel which is being run into the mountain.

George Miller and H. J. West passed through here today on their way to the Grand Cliff range on a prospecting trip. They are good prospectors and we hope they will strike something rich.

O. B. Amaden, superintendent of the Gold Bug Mining Company, is in Kingman preparing to ship a large amount of mill machinery to the Colorado river west of the Gold Bug. It is expected that the mill will be completed within sixty days.

Cordray and Beatty are working the gold claim near Meyer's Well, in San Francisco district, and claim to have a good showing. The vein is over two hundred feet wide and samples taken from nearly the whole width show gold in paying quantities.

The C. O. D. mill is now turning out the finest grade of concentrates we have ever seen shipped from that bonanza property. Charles Lynch has charge of the work and thoroughly understands his business. The mill is now sure to keep running for years to come, unless silver goes out of sight.

Work on the Oro Plato mine is progressing finely. The main shaft is down over seventy feet and going down rapidly. A winze is being sunk on the south ore chute and it is expected that it will be in ore by the middle of the week. On the first ore chute north the old winze is being cleaned out and will be pushed down as fast as the pump-shaft drains the water from it. In the main tunnel, now being run into the hill, rich native silver ore is being taken out and shipped to the sampler. Before many weeks pass by the Oro Plato will be one of the biggest ore shippers in Mohave county.

Kingman Sampling Works.

The following lots of ore were worked at the Kingman sampling works for the week ending June 22:

Tennessee mine, seventeen tons.
Tuckahoe mine, Hamblin & Alman, eighteen tons.

J. W. Gerritt, Buckeye mine, eighteen tons.

Miller & Cram small lot from Bontriger Springs.

Mrs. John Kay small lot from Mineral Park.

Henry Strawbell, one ton from Cedar.

Three carloads of sixty tons were shipped to Colorado smelters during the week.

Attention—Miners. To the Ore Producers.

During the absence of my manager, Mr. S. W. Withers, I shall be in control and management of the Kingman Sampling Works. Being sole owner and engaged in no other business to detract from this, will give it my entire and undivided time and attention. Will be ready at all times through the day during the week (except Sundays) to see and make rates and talk business to those having ore for sale. My office is at the Kingman Sampling Works. Office hours, all day.

Am a fixture here in Mohave county and anxious to do business and make money.

WM. H. LAKE.

Mining Application.

[No. 309 A. & 309 B.]

U. S. LAND OFFICE,
PRESCOTT, ARIZ. May 17th, 1895.

Notice is hereby given that John and Joseph W. Wolfskill, whose postoffice addresses are Los Angeles City, California, have filed their application for a patent for the Atlantic, Alpine and Wonder consolidated group of lodes, veins, or mineral deposits bearing gold and silver, also for Atlantic Mill Site, situated upon unsurveyed land, and as near as can be ascertained in T. 19 N. R. 14 W. Gila and Salt River Base and Meridian, in Maynard Mining District, Mohave county, Arizona, on the northern slope of the Wallapai mountains, about five miles southeast of Frieze Wash station on the old government road, from Mohave to Prescott, and designated by the official field notes and plat of survey on file in this office as mineral survey Nos. 1128 A. and B. being described as follows, to-wit:

Beginning at a post marked 1-1128 A on north side, 9-1128 A on south side and 1-1128 B on east side, identical with S E corner of Atlantic lode location, also with N E corner of Wonder lode location, also with N W corner of Atlantic Mill Site location U. S. L. M. No. 1128, bears N 69° 50' E 2928.25 feet. Thence N 45° 10' W 1500 feet to a post marked 2-1128 A on south side and 5-1128 A on north side, identical with N E corner of Atlantic lode location, also with S E corner of Alpine lode location, U. S. L. M. No. 1128, bears S 89° 17' E 3813.08 feet. Thence N 45° 10' W 1148.40 feet to a post marked 8-1128 A identical with N E corner of Alpine lode location. Thence S 44° 50' W 600 feet to a post marked 7-1128 A identical with N W corner of Alpine lode location. Thence S 45° 10' E 1148.40 feet to a post marked 6-1128 A on north side and 3-1128 A on south side, identical with S W corner of Alpine lode location, also with N W corner of Atlantic lode location. Thence S 45° 10' E 1500 feet to a post marked 4-1128 A on north side and 12-1128 A on south side, identical with S W corner of Atlantic lode location, also with N W corner of Wonder lode location. Thence S 45° 10' E 1500 feet to a post marked 11-1128 A identical with S W corner of Wonder lode location. Thence N 44° 50' E 600 feet to a pole marked 10-1128 A identical with S E corner of Wonder lode location. Thence N 45° 10' W 1500 feet to place of beginning. Total area of group 57.13 acres. Variation 14° 15' E.

Survey No. 1128 B, Atlantic Mill Site. Beginning at corner No. 1 identical with N W corner of mill site location; also with corner No. 1, S E corner Atlantic lode, also with corner No. 9, N E corner Wonder lode. Thence S 45° 10' E 300 feet to a post marked 2-1128 B identical with S W corner of mill site. Thence N 44° 50' E 200 feet to a post marked 3-1128 B, identical with S E corner of mill site. Thence N 45° 10' W 300 feet to a post marked 4-1128 B, identical with N E corner of mill site. Thence S 44° 50' W 200 feet to corner No. 1, the place of beginning.

Containing 1.38 acres, Var. 14° 15' E; all corners set in mound of rock or earth. The loc tien monument consists of a pine tree, fifteen inches diameter at base, and forty feet high, the lower limbs cut away to a height of twelve feet, blazed on west side and marked (with timber scribe) U. S. L. M. No. 1128. The tree stands on the top of the mountain, east of the Atlantic Mill on the upper edge of a syenite boulder, 24x15x7 feet.

The location of these claims are recorded in the Recorder's Office of Mohave county, Arizona, Atlantic in Book F, page 734, Alpine, book K, page 574, Wonder book K, page 349 Mining Records. Atlantic Mill Site, Book 1, page 33, Mill Sites and Water Rights.

Any and all persons claiming adversely any portion of said mill site, mining claims or surface ground, are required to file their adverse claims with the Register of the U. S. Land Office at Prescott, Arizona, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the statute.

H. D. Ross,
Register.

It is hereby ordered that the foregoing notice of application for patent be published for ten (10) weeks in the MOHAVE COUNTY MINER, a weekly newspaper published in Kingman, Mohave county, Arizona.

Represents the net shrinkage in property value in the South and West, according to the tax returns officially recorded, for 1894, as compared with 1893.

A decisive contest is to be fought between now and the next Presidential election for

FREE COINAGE

THE PEOPLE'S MONEY—the coinage of both gold and silver, without discrimination, which means the free coinage of both as opposed to the policy of contraction, which has been dictated by England and adopted in Washington, and which levies tribute on every product of the farm, on valuations of all kinds and on all compensations for labor.

THE GREAT ISSUE NOW is the double standard against the single standard—the use of both gold and silver as standard money metals against keeping the currency of the country on the gold basis.

The ATLANTA WEEKLY CONSTITUTION

published at ATLANTA, GA., and having
A CIRCULATION OF MORE THAN 156,000, chiefly among the farmers of the country, and going to more homes than any weekly newspaper published on the face of the earth, is

The Leading Champion of the People in all the great contests in which they are engaged against the exactions of monopoly. THE CONSTITUTION IS THE BIGGEST AND BEST WEEKLY NEWSPAPER published in America, covering the news of the world, having correspondents in every city in America, and in the capitals of Europe, and reporting in full the details of debates in Congress on all questions of public interest. It is

THE GREAT SOUTHERN WEEKLY NEWSPAPER, and as the exponent of Southern opinion and the purveyor of Southern news it has no equal on the continent.

An enlargement of 12 columns. To meet the demands upon its space for news, The Constitution will increase its size during the summer to 12 pages, 7 columns, making 84 columns each week.

THE CONSTITUTION'S SPECIAL FEATURES are such as are not to be found in any other paper in America.

The Farm and Farmers' Department, The Women's Department, The Children's Department, are all on the able direction and are specially attractive to those to whom these departments are addressed.

Under the editorial management of CLARK HOWELL, its special contributors are writers of such world-wide reputation as Mark Twain, Bret Harte, F. A. B. Stockton, Joel Chandler Harris, Gessy Hamilton, and hundreds of others, while it offers weekly service from such writers as Ed. A. B. C. Plummer, Wallace P. Reed, Frank L. Stanton, and others, who give its literary features a peculiar Southern flavor. During the week-end and failure to bring the paper to the door of the subscriber, The Constitution has heretofore, in season and out, the have shown to be propitious in their unerring direction.

STRAIGHT, CLEAN, UNTRAMMELED,

THE CONSTITUTION salutes the free people who insist that the servants of the people shall not be under their masters. By special arrangement the paper publishing this announcement will be clubbed with THE CONSTITUTION at the remarkably low rate announced elsewhere in this issue.
